A MESSAGE FROM TRIBAL COUNCIL

Mun-a-hoo neum, tzow poo-he-theu-deu, Good April. Hope everyone is in good health and spirits. Big Sandy Rancheria had a great turn out for the Spring Gathering event, thank you to everyone that showed up. Here is the latest update on The Tribal Gaming Compact. The Tribal State Gaming Compact has been scheduled for a hearing before the legislation Committee on April 17, 2024. Tribal council are in hopes that the legislative committee will approve the compact before the summer recess occurs. Once The Secretary Of The State receives the approved compact, the compact will then be submitted to the Department of Interior in Washington D.C. Central Office of Indian Gaming and Solicitors office for review. The Assistant Secretary of Indian Affairs will then execute signature on the compact. The Work Force Development crew has been doing some wood clearing out on the Auberry “Airport” property. If you need wood, please contact Matthew Munoz at (559) 374-0066 ext.213 or call the Tribal office . This year we have two princess contestants for our upcoming Pow-Wow! Both of them are tribal members too which makes it twice as exciting. Our first contestant is Jaime Oliver, the daughter of Heather Oliver, and the other is Ricki Burroughs the daughter of Michelle Burroughs. If you see these two princesses going around selling tickets, please support both these great candidates. The next general council meeting will be on June 30th. here at the BSR GYM. Hope to see you all there and like always thank you for your time and energy have a blessed rest of your month.

Big Sandy Rancheria Elders

Hello Elders,

BSR would like to welcome our newest Elders Robert Hutchins Jr. and Dawn “Tippy” Lavell. Robert became an elder on March 2nd and Dawn on March 19th. Welcome both of you to the Elder community. Elders luncheon went well. The elders celebrated St. Patrick’s Day and Easter all in one luncheon. There was 19 elders that attended this luncheon. A handful of Elders went on the Zoo Trip with the CAP department last month. They enjoyed the Zoo. Big Sandy Rancheria Tribal Elders will go on a total of two trips this year. One of the trips will be the Acorn Festival, at Black Oak Casino. The second elder trip has not yet been decided. Please be patient. All of the elders will be informed as soon as one is scheduled. This is a reminder, elders that are 55-59year’s old are not eligible to receive the water and food boxes. The funding is from CIMC the program has an age limit of 60years. old. So you will not be eligible for these items until you turn 60 yrs. old and you must live within the service area. The next Elders meeting/luncheon will be on Thursday, April 11th at 12:00pm at the BSR GYM. Hope to see you all there. If you have any questions please feel free to contact Leann Anguiano. languiano@bsrnation.com or cell phone number 559-917-1674.

BSR Head Start

Big Sandy Rancheria Tribal Head Start Program

In March, we had a roaring good time with a special visit from our forest friend, Smokey Bear! Our class was delighted to learn all about fire safety and the importance of taking care of our environment. Smokey Bear and his friends shared a story and taught us sign language. A big thank you to Smokey Bear for making our day extra special!

Our little egg-hunters had a blast at our annual Easter Egg Hunt! The kids were excited as they dashed around, searching high and low for eggs. It was a joyous celebration of springtime!

We hope everyone has a fun and relaxing spring break and will see you on April 2nd.

Parents please remember that drop off is between 8 am and 8:30 am. If you are going to be later than 8:30 am please call the Head Start, so the teachers know to expect your child for breakfast.

Why is Groundwater Important to Humans

Contaminated groundwater can make people sick. Water infrastructure requires regular maintenance. Groundwater sometimes contains naturally present germs and harmful chemicals from the environment, such as arsenic and radon. More often, however, human activities contaminate ground water.

The United States uses 82.3 billion gallons per day of fresh groundwater for public supply, private supply, irrigation, livestock, manufacturing, mining, thermoelectric power, and other purposes.

The most common method to access groundwater is by drilling wells into the aquifer systems. Rainwater seeps through the earth into these systems, resulting in natural, clean groundwater

Community Clean-up April 15th through the 19th

A roll off will be available all week at the transfer station, all items need to be put inside of the roll off bin. Do not leave items next to the to the roll off. Items that cannot be dumped; motor oil, flammable liquids.

What is Composting?

Composting is the natural process of recycling organic matter, such as leaves and food scraps, into a valuable fertilizer that can enrich soil and plants. Composting simply speeds up the process by providing an ideal environment for bacteria, fungi, and other decomposing organisms (such as worms, sowbugs, and nematodes) to do their work in your composting pile.

Why Reduce, Reuse, Recycle

It helps sustain the environment for future generations. Reduces the amount of waste that will need to be recycled or sent to landfills and incinerators. Allows products to be used to their fullest extent. It also saves landfill space by keeping useful materials out.
