A MESSAGE FROM TRIBAL COUNCIL

Munahoo Neum,

Tzow Ewaniwe, good May. The Tribe is pleased to announce that the Fresno American Indian Health Project (FAIHP) satellite office located at the Oak View Terrace property in Auberry, is now fully operational. The services provided are Youth services, Substance Abuse services, Red Warrior Project-HIV/AIDS services, After School services, Native Wellness services, Cultural services for sobriety and recovery, supportive services, Care integration services, just to name a few. The offices are open Monday to Friday, from 9:00 am to 5:00 pm. The phone number is (559) 320-0490 ext. 605.

It's that time of the season again, the flowers are out, and everything is in full bloom. It could not be better timing for our up coming 23rd Annual Powwow and Gathering on May 18th and 19th. Make sure to mark it on the calendar, and if you are a Hand Game player, get your squad together and start practicing; we are already getting teams signing up, so yah-bah-ish.

Recently, this last month, BSR hosted the Central Valley Indian Health training work session here at the gymnasium. It was a great turnout, with local sister tribes attending as well as many representatives from all types of organizations, from tribal leaders to county specialists. The meeting was focused on the Indian Child Welfare Act and its applicable laws. There were three local ICWA representatives answering questions and just giving an overall summary of how vital ICWA is and how it should be applied.

The next event that we will be having is our Honoring Mothers event May 3rd from 6:00-8:00 p.m. Please come and enjoy a night of fun and visiting with family and friends. Also, just a friendly reminder that this upcoming May 10th is Native American Indian Day, and all tribal offices will be CLOSED. Our next general council meeting will be on June 30, 2024. Thank you for all your time and energy and, as always, have a blessed rest of your month.

Big Sandy Rancheria Elders

Mun-a-Hoo Elders! There were twenty-three BSR elders that attended the last luncheon. The next elders luncheon will be on May 9th, at 12:00pm, in the Gym. Please save the date for May 18th and 19th for the Big Sandy Rancheria 23rd annual Pow Wow and Gathering. BSR Elders will have a booth this year to do fundraising. The funds that are made will be used for trips, dinners, movies, or whatever the group decides to do. If anyone has anything they would like to donate to the elders booth so they can use for raffle, or if someone wants to make a donation, please let Leann or Matt know at the next elders luncheon. The elders booth will also need volunteers for both days. Please stay cool as the weather is getting warmer. If you have any questions, please feel free to contact Leann Anguiano at languiano@bsrnation.com or cell phone number 559-917-1674.

BSR Environmental Department May 2024

Adapting to climate Hazards

The way your communities adapts to climate change will depend on how climate change is affecting the region where that community is located. Climate change is not the same everywhere. For example in some areas it causing floods to become more frequent. In other areas it might be a heat wave that are more hazardous in your area. Indigenous and local communities live in close contact with their environment: they know it intimately, they depend on it, and are directly affected by it's degradation. It effects not only our traditional supplies for basket making it also effects our natural medicine that we use. Therefore, efforts to maintain, restore and manage a healthy environment are more likely to succeed if they intergraded into the traditional knowledge of these communities.

The Environmental Department took part in the Community Shredding Event, that was held on Saturday March 16th. Partners, Included Central Valley Community Bank and Friends of Auberry Library. There were 35 community members that participated and got rid of their unwanted papers. It was a beautiful day and so nice to see people from the community.

Here are Four Examples of Ground Water

1. **Artesian Well**—Is a well that brings groundwater to the surface without pumping because it is under pressure within a body of rock ad/or sediment known.
2. **Man-Made wells**—a dug well is a shallow large diameter man-made pit or hole, from which groundwater can be abstracted.
3. **Spring**—is a place where water moving underground finds and opening to the land surface and emerges, sometimes as just a trickle, maybe only after a rain, and sometimes in continuous flow.
4. **Aquifers**—An aquifer is an underground layer of water-bearing material, a body of porous rock or sediment saturated with groundwater. Groundwater enters an aquifer as precipitation seeps through the soil. It can move through the aquifer and resurface through springs and wells

Ground water is important. Big Sandy has 4 wells that supply our community with water. We count on ground water to help keep our well running. It is very important not to waste water.
