Big Sandy Rancheria Elders

Munahoo Elders,

It is with great sadness to announce the loss of one of Big Sandy Rancheria Elders, Dennis Baty. He passed away in his home on May 10, 2024, he was loved by many and he will be greatly missed in the community. Our condolences to the Baty family!

Wow! Last month was very busy. First, a couple elders attended the sage gathering, which was in Santa Barbara County. It was a very quick trip up and back. We gathered many bags of sage and was able to wrap over 120 sage bundles. On May 18th and 19th we had our annual pow wow which was a huge success! It was so nice to see several elders attend the pow wow. We honored all elders with a gift of a BSR coffee cup and a stick of sage. The best thing about it was when our Eldest elder of the tribe showed up, Barbara Culwell. It was an honor to see you at the pow wow this year.

Starting in July, I will be taking our elders to Shaver Lake every Friday. The elders will be leaving the Gym at 9:00am. We will be going to put our feet in the water, have a light lunch and just relax and soak up the sun. The next elder luncheon is on June 13, 2024, at 12:00pm at the BSR Gym. We will be serving a hot lunch and having some raffle prizes. Hope to see you there!

Where Does Your Trash Go?

Do you ever wonder where your trash ends up? Your trash could end up in one of many places, depending on how you dispose of the items. Recyclable trash, for example, is sorted and sent to a recycling center.

So, What happens to trash at Big Sandy, after it's thrown away?

- Your trash is picked up and taken to the transfer station at Big Sandy
- Your trash will be taken to the landfill in Friant California. Landfills must be located away from the city for environment reason.
- The best-case scenario, the trash will be incinerated, and the process this entails will generate the energy that feeds your local power grid

Still various steps must be taken to reduce trash and make and make it disappear in the most sanitary way for our environment

What is outdoor Air

Outdoor air –the air outside buildings, from ground level to several miles above the Earth surface-is a valuable resource for current and future generations because it provides essential gases to sustain life and it shields the Earth from harmful radiation. Air pollution can compromise human health and the environment in many ways for example, outdoor air pollution:

- Can contribute to “acid rain”
- Can impair visibility and damage crops
- Is associated with a number of human health effects including heart attacks, asthma attack, bronchitis, hospital and emergency room visits, loss of work an school, restricted activity days, respiratory symptoms, and premature mortality.

Some things you can do to help clean air is: walk, bike, carpool, make your house more efficient.

The Environmental Department would like to thank everyone who participated in our Swap Meet/Earth Day event. We had a good turn out with 11 vendors. Selling household items, Comic books, Fantasy games, homemade jewelry, tools, Indian Taco's and sweets. A lot of valuable treasures were purchased.

Tribal Members and Community

Welcome to Big Sandy Rancheria Monthly Food Bank

Many years ago, The Tribal Council collaborated with the Central California Food Bank and USDA Foods to bring fresh fruits and vegetables up to the community. Noticing in the last few months Very Few BSR Tribal Members are taking advantage of this. Not only does the food bank bring fresh fruits and vegetables they also bring meat, cheese, milk, canned food, and dry foods. The Food distribution is only once a month! So, mark your calendars for every Third Thursday of the Month! The next food bank is on June 20th. People start lining up before 8am. Don't miss out on some really good food! Hope to see you there!
